

SPECTRA TUNE HCL

SPECTRAL LIGHT LUMINAIRE

- 10 different colored LED channels with independent dimming
- Optical feedback that warrants spectral precision and accuracy.
- Integrated thermal protection algorithm
- Integrated Power protection algorithm
- Standard mounting drill hole
- Easy-to-use software interface (·WAVE) that calculates all the relevant quantities: color coordinates, CRI/Ra, TM30-15-Rf/Rg and graphical representations
- Organize your knowledge! Store all the light spectra and spectral sequences in the user's database and share your spectra with your scientific colleagues.
- Fast spectral transition in asynchronous op. mode

- Optional: RESTful API & IP65 front glass

Spectrally tunable LED downlight luminaire that make it possible to reproduce any lighting spectrum in the visible range
